**"Warner's SAFE Remedies" Perfectly Safe to Use.**

UNIVERSITY OF ROCHESTER, Chemical Laboratory.

Mr. H. H. Warner has placed in my possession the formulae of the several Medicines manufactured and sold under the general designation of "Warner's SAFE Remedies." I have investigated the processes of manufacture, which are conducted with extreme care and according to the best methods. I have taken from the Laboratory samples of all the articles used in the preparation of these Medicines, as well as the several Medicines into which they enter. I have also purchased from different Druggists in this City "Warner's SAFE Remedies," and upon critical examination I FIND THEM ALL ENTIRELY FREE FROM MERCURY and FROM POISONOUS AND DELETERIOUS SUBSTANCES.

# WARNER'S SAFE DICTIONARY.

In "WARNER'S SAFE DICTIONARY" we place before the public the best and most useful book ever given away. It contains over 5000 words, giving Pronunciation and Definitions, compiled by competent authority, suitable to every-day life and conversation, and should find its way into every business house, dwelling and school in the country. It is all that its title implies: "Safe" to keep and "Safe" to refer to, and by a careful consultation we hope your own feelings may be so defined that you may be induced to give WARNER'S SAFE REMEDIES a fair trial. They have been before the public so long, and are so well known, that it is hardly necessary to say anything further in their favor; but we never miss an opportunity of warning our friends against those who are jealous of our success, and who would play upon the susceptible public any trick capable of placing their nostrums in the hands of the sick when our Remedies are called for.

## TO PURCHASERS.

Under no circumstances is any Dealer authorized to remove the Stamps over the Cork of "Warner's SAFE Cure," nor is he authorized to repurchase our bottles, wrappers or boxes! If he offers to do this, we will be obliged if our patrons will report the case to us. The proceeding is Criminal, and we shall prosecute Rigorously! Take no bottle of "Warner's SAFE Cure" (or other liquid SAFE Remedies) unless it has the following Chocolate-tinted Private Stamp affixed over the Cork, as shown in Fig. 2.

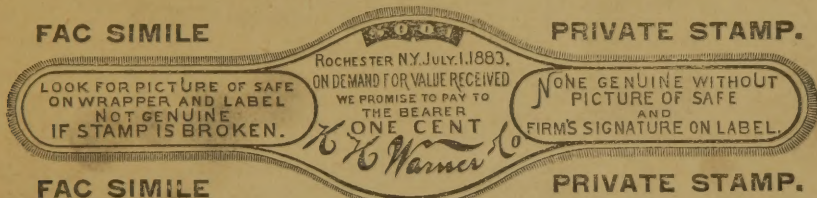

Fig. 1.

If a little care and precaution is exercised you need not be deceived, as our "SAFE" preparations are known as "Warner's SAFE Cure," "Warner's SAFE Rheumatic Cure," "Warner's SAFE Pills," "Warner's SAFE Diabetes Cure," "Warner's SAFE Nerveine," "Warner's Tippecanoe The Best," "Warner's Tippecanoe XXX," and "Warner's SAFE Asthma Cure."

Fig. 2.

All liquid "Warner's SAFE Remedies" are put up in amber colored glass bottles, the wrappers having a black back-ground with white letters. The picture of a SAFE is prominent upon the wrapper and the label, which latter also bears the FAC-SIMILE SIGNATURE. "Warner's SAFE Pills" are put up in plain glass vials. "Warner's SAFE Asthma Cure" is put up in tin cases. "Warner's SAFE Yeast" is put up in pasteboard boxes.

Take no "Warner medicine" offered you by the pint, quart or gallon, and refuse any bottled preparation called "Warner's" unless it has a perfect private stamp over the cork, and our SAFE trade-mark blown in the back of the bottle, and imprinted on the label.

**He Barely Escaped Bright's Disease.**

NEWARK, N. Y., June 20th, 1888.—Last winter I was attacked with **severe kidney difficulty**, which incapacitated me for work, severe pains in the small of the back, attended with almost constant aching on the least exertion. I suffered much pain, the passage of water was a severe trial, with much scalding and redness of the urine. I felt I was suffering from **premonitory symptoms of Bright's Disease**. I procured a bottle of "Warner's SAFE Cure." After taking the first bottle I felt so much improved that I continued to take it to the extent of four bottles. **I am a new man**, able to do a good, hard day's work, with no recurrence of any trouble with the kidneys.

**Snatched from the Grave.**

NEW HAVEN, Conn. (100 Gregory St.), Dec. 22, 1887.—In November, 1873, I was feeling quite badly. I had for a long time been feeling very dull, with no energy, and on a cold or cloudy day I would feel as if my underclothing was damp. **My back was bothering me very much**. Sometimes it would ache daytimes and sometimes at night while in bed, but hardly ever both days and night. My memory was poor. It was hard work for me to do anything, which was very unnatural for me, as I had always been an active man. A physician told me that I had **Bright's Disease** of the kidneys, and that I was in a **pretty bad shape**, and must take the very best care of myself possible. He advised me to keep myself warm and not venture out in any but the finest of weather. I kept around for about three weeks, and then, catching a slight cold, I was taken down with cramps and congestion of the kidneys, and confined to my room for nineteen weeks. The first four weeks I took my physician's medicine (he was a good one, and I believe the best in the city on kidney troubles), and grew worse day by day. **Rheumatics took me in both hips and hands**. I got so that I could hardly walk about my room. My room was kept up to 80, and I sat in front of the fire wrapped up in a large woolen lap-robe, with my winter clothing on, in order to keep comfortable. **My eyesight kept growing dimmer**, and my head and back ached continually. My memory grew poorer, my water continued to be either the color of dark coffee or bloody. I then began to use "Warner's SAFE Cure." A few weeks after the treatment with "Warner's SAFE Cure," my urine suddenly, just before noon, became clear as crystal, and you may be sure I was rejoiced. The albumen soon ceased passing me, and **I began to gain strength**. I continued taking "Warner's SAFE Cure" until I had taken 57 bottles, then I stopped for a while, and myself and my family have **taken about 200 bottles**. For nearly a year I have not felt the need of any, and **am able to attend to my business most of the time**. I am now in my 51st year. I give "Warner's SAFE Cure" the praise, and take every opportunity to tell the afflicted with Bright's Disease what "Warner's SAFE Cure" has done for me.

**Safe Cure Cures Hemorrhages.**

PROVIDENCE, R. I. (191 Friendship St.), Dec. 8, 1887.—Five years ago it was thought **I could not live**, my physicians expressing strong fears to that effect. I was told by them that I had Bright's Disease. I had **hemorrhages**, voiding great quantities of blood and mucus. I was prevailed upon to take "Warner's SAFE Cure" and "Warner's SAFE Pills," not until, however, my physicians had concluded that they could do no more for me. **To-day I am well**, for which I credit "Warner's SAFE Cure" and "Warner's SAFE Pills."

**Called Back from the Grave.**

MT. VERNON, O.—In 1882 I was given up by my physicians to die with Bright's Disease of the Kidneys. **Had been sick for a year**. The doctors said they **could do nothing** more for me, that I must die. A friend of mine advised me to take "Warner's SAFE Cure" and "Warner's SAFE Pills." My family and friends considered me as **given back from the grave**.

**"The Doctors did me no Good."**

THE ROCK, Ga., Jan. 4th, 1888.—I was taken with a **hemorrhage of the stomach**. I had two at one time, and in four days I had two more, which put my system all out of order. I was down two months on my bed. Doctors did me no good; their medicine did not act on the kidneys and liver, and I began to swell in bowels and feet. They said I had the dropsy, and I got no better, but **grew worse every day**. I then thought I would try "Warner's SAFE Cure," so I got one bottle and commenced to take it. I found out before I had taken one bottle it was **doing me good**, so when I had taken two bottles my kidneys were passing off the water. I then was feeling better, so I kept taking it and the "Warner's SAFE Pills." I have used ten bottles and **am as well as ever**. The Doctors had given me up.

## Almost Fatal Result of a Fall.

SALEM, Roanoke Co., Va., May 10th, 1888.—Some time ago I received an injury in the small of my back, which finally settled in my kidneys and totally disabled me. For months I suffered the most torturing agonies, and could get no rest night or day. I could not sit up, and when I lay down there was no position I could take that would allow me an instant's peace. The only position I could endure to lie in was on the flat of my back. It seemed as though I was being rent in twain. Had there been an auger boring in my back-bone the pain could hardly have been greater. At times my urine was merely cloudy, and it ranged from that hue to a poisonous-looking thick yellow or red. It was most highly offensive to the smell, and on being voided almost scalded. I fell away rapidly and was in a most miserable predicament.

The physician failed to do me any good, and I tried "Warner's SAFE Cure." The first bottle had not been exhausted before I knew a change for the better was taking place. The discharge grew thicker, resembling bloody matter, but I saw that that simply meant that the medicine was routing the poisons out of the system, and I persevered. When three bottles had been used I was sound and well again, feeling as well as I ever had in my life.

## Curative Powers indeed Magical.

DETROIT, Mich., Feb. 29th, 1888.—I take this opportunity of expressing my appreciation of "Warner's SAFE Cure." I have used it in my family with most excellent results. My wife, a few years since, having been afflicted with such severe pains in her back at times that she was almost unable to move, "Warner's SAFE Cure" completely eradicated the same, and I am very glad to be able to state that she has not since been troubled. I am now taking it myself, and recommend it to others. The least I can say in its behalf is that the curative powers it contains are indeed magical.

## The Happy Result of a Fair Trial.

PIKEVILLE, Ky., Sept. 8th, 1888.—About ten years ago I was taken with pains in my back in the region of my kidneys, extending down to my hips, and even to my knees. I suffered excruciating pains at times and had a dull, heavy aching and tired feeling nearly all the time. In spite of medical aid from three or four of our eminent regular practitioners in medicine, whose relief was only temporary, I remained in this condition for about three years, during which time I took one bottle of "Warner's SAFE Cure," receiving but little benefit. As I had taken so much medicine from drug stores, M. D.'s, and other patent medicine vendors, I was not at all surprised at the result. But

after a time I had another spell with my back and kidneys, and this time I determined to give "Warner's SAFE Cure" a fair trial. I purchased five or six bottles, and two boxes of "Warner's SAFE Pills," and took them in accordance with directions. I also took three more bottles this summer to strengthen me up again, and am at this time in better health and spirits than usual. I take great pleasure in recommending "Warner's SAFE Cure" for kidney diseases.

## Brought on by Neglected Kidneys.

SPENCERVILLE, Md., Oct. 26th, 1888.—I feel it my duty to write you a few lines in behalf of that great remedy called "Warner's SAFE Cure." I cannot give it the credit it deserves, yet I can say it has saved my life, when all other remedies failed. I was in a very low state of health, partially brought on by my own carelessness, but part sent me as an affliction, yet your medicine has almost cured me of both, and I wish to express my gratitude for such a timely and assistant remedy. I was, I thought, in the last stages of Consumption, and after a great deal of medical attendance, and great expenditure in patent medicine, I gave up all hope of recovery, when a friend who had taken "Warner's SAFE Cure" to advantage persuaded me to try it. I did so, and can now say that I believe it has given me life and health.

## "As a Last Resort I Yielded."

WILMINGTON, Del., Dec. 3d, 1888.—Five years ago I suffered excruciating pain from an attack of Kidney Disease. My urine was highly discolored, resembling blood in color, and deposited a large amount of sediment, similar to brick-dust, and very "gritty." I was attended by one of the best physicians in Wilmington for three months, which were days of agony to me. My back and sides pained so that I felt as though the least motion would cause my body to snap in two. Accompanying these distressing symptoms was a neuralgic attack, which extended from my elbows to the top of my head, holding my head and neck in a rigid position for two weeks, during which time it would take me fully one hour to get my head down on my pillow, with the assistance of my wife.

I was much discouraged, and while in this condition a friend of mine (a retired physician) called on me and urged me to try "Warner's SAFE Cure." I hesitated, being somewhat prejudiced against proprietary medicines; but as a last resort I yielded and began taking "Warner's SAFE Cure" as per directions, and after taking seven bottles I was entirely cured, and have been recommending "Warner's SAFE Cure" to my friends ever since.

### The Nausea all Passed Away.

SPRINGFIELD, Mass. (150 State St.), Jan. 16, 1888.—My liver was torpid, and at times I would be so **constipated** that for days I would have no movement of the bowels. Pains in my back, retention of urine, headaches and indigestion were my daily attendants. I had tried four different physicians, but they failed to benefit or relieve me. I had tried once before "Warner's SAFE Cure," but it had nauseated me, and I concluded that it was not the thing for me. I had faith in it, because of the number of people I knew that had taken it and been cured, and because of the high standing of Mr. Warner. I again began its use, and again it made me sick to my stomach,\* but this time I kept on, and in connection I took "Warner's SAFE Pills." It was not long before the nausea passed away, after which I improved rapidly. I faithfully continued until I was **entirely cured**.

*Joseph S. Whitcomb*

Of Whitcomb Bros.

\*When "Warner's SAFE Cure" nauseates patients, **reduce the dose and take it before meals**. Under no circumstances discontinue its use. The very fact that it produces such ill feeling in the stomach shows that you are in sore need of its curative properties. It cannot injure you. Keep up the treatment, and after a while the nausea will disappear and you will get well.

### What Better Proof do You Want?

RANGELEY, Me., May 3d, 1888.—Although it is not considered etiquette for a regular M. D. to in any way aid in the introduction or sale of patent medicine, still when we meet with an article of undoubted reliability and virtue **I believe it becomes our duty to use that article in our practice**, but we should introduce it to others, and let them know what it will do.

A lady of my acquaintance had been a great sufferer from Bilious Sick Headache for more than 40 years. The attacks came on once in two weeks, and lasted two days on the average, she being confined to her bed during the time, and suffering terribly. Hundreds of dollars had been expended for medicines and doctors, but did no good. At last she was persuaded to try "Warner's SAFE Cure" with "Warner's SAFE Pills." **Seven bottles of "SAFE Cure" cured her of this terrible disease**, and during the past seven years she has not had a single attack of the old trouble, this after having been afflicted for over 40 years. The lady is my foster mother, and I know this is true.

In Oct., 1884, I was called to attend the little son of David More, of Madrid, Me. I found him suffering from General Active Anasarca, and bloated so that it was very hard work for the little fellow to breathe. By the heroic use of diuretics, cathartics and absorbents I was able to relieve him; but do all I could the same condition would present itself as soon as the medicine was stopped. I had three of the leading physicians of the county in consultation, but it did no good: the boy failed every day. I don't think that under our treatment he would have lived two months. **I gave him up, and as a favor requested the father to try "Warner's SAFE Cure" and "Warner's SAFE**

**Pills."** The first bottle relieved him more than all our medicines had done, and **seven bottles cured him**, and to-day he is tough and rugged, as well as any boy in town.

### "Strange, yet None the Less True."

LEXINGTON, Va., Oct. 11th, 1888.—Some time ago I had an attack of kidney and liver disease, and although immediate treatment was resorted to in order to arrest the disease, yet **the symptoms grew daily worse and worse**. How many remedies I tried I cannot now remember, but they were many, and all of them were highly recommended in diseases of the kind with which I suffered, yet from none of them did I derive the slightest benefit. At last I tried "Warner's SAFE Cure," and strange as it may appear—yet none the less true—**I experienced immediate relief**. My cure was an assured fact from the first three doses. I am now sound, and owe it to "Warner's SAFE Cure."

*John B. Adams*

### "Was Made Happy as the Lark."

CREMONA STATION, Va., June 9th, 1888.—I have suffered every spring for fifteen years from attacks of Kidney and Liver trouble. There may be those who have suffered as much, but I cannot believe it. Confident am I that no one ever suffered more, and moved about. I was frequently so ill as to be forced to take my bed. I could not, even if it were necessary to do so, describe my miserable feelings. **Life was actually burdensome**, for I was in daily expectation of a fatal termination of my misery. As a matter of course, physicians were called, and prescribed. Year after year many dollars that could have been used otherwise were spent in paying doctors' bills. Many other medicines were used, but all to no purpose. Finally I heard of "Warner's SAFE Cure." I bought some; tried it. **It acted promptly, I may say instantly**, and thank God permanently, for my ill health, every symptom, vanished as dew before the rays of the morning sun, and I walked forth a well man. Life seemed worth living. I was made happy as the lark.

*J. H. Tanner*

### Sick Headache

is of nervous origin, caused by the retention of kidney and liver acid in the circulation, which is carried to the brain, producing irritation and congestion. If a thorough course of treatment with "Warner's SAFE Cure" and "Warner's SAFE Pills" is taken, this trouble will be prevented and cured. ## "Death would be a Welcome Relief."

SHERANDO, Va., July 9th, 1888.—I experienced, some years ago, the most painful symptoms in the region of my kidneys, liver and bladder; so troublesome at last did it become that I consulted one of the best physicians in this section. He prescribed for Catarrh of the Bladder, and his treatment at first seemed to do some good; but in the course of time all the old symptoms, reinforced by others, and intensified to an unbearable degree, returned. My appetite left me, and the food I forced into my stomach lay there undigested like a load of stone, causing the **greatest mental and physical sufferings**. The pains I endured were simply indescribable, and I soon became helpless.

From my bladder came the most offensive discharges, often so highly colored as to resemble blood, and wherever it touched my clothing it instantly stained the place, like a strong acid. So intense was my suffering, so terribly distressing my condition, that I often felt that death would be a **welcome relief from the terrible predicament**. To be unable to walk, to sit, or even to lie down, without the most excruciating pains was, you may well imagine, a pitiable fix. Such was my case. My friends of course tried to relieve me, but their efforts were in vain, and they, like myself, gave over the shadow of hope. I began "Warner's SAFE Cure" according to directions, and, wonderful to relate, before more than half the bottle had been used **every symptom of Catarrh of the Bladder had disappeared**, and I regained my general health with the most surprising rapidity. Neighbors who had daily expected to hear of my death were almost speechless on seeing me again moving among them. My case was the most wonderful one ever heard of about here, and is known to all this section. I candidly believe that but for "Warner's SAFE Cure" I would not now live to enjoy the good health I do.

## Cured of Bladder Disease. Age, 81.

PIKEVILLE, Pike Co., Ky., Sept. 13th, 1888.—Having suffered untold agonies for four or five years from bladder disease, and having tried five of the best doctors in my county, who utterly failed to relieve me, I determined to try two bottles of "Warner's SAFE Cure," having doubts as to its effects in my case. Having used up the two bottles with no perceptible relief I resolved to try three more bottles, and after using up the three last bottles (five in all) **I was perfectly cured**. My case was indeed critical. I could not ride horse-back two or three miles without abundant half-blood urine. I frequently had to rise as many as forty times a night in order to try to urinate. Had it not been for your marvelous medicine, **I can't see how I could have lived**, as I am in my 81st year. Deeply grateful for what "Warner's SAFE Cure" did for me, I feel in duty bound to point others of my suffering fellows to "Warner's SAFE Cure," as a sure remedy for the disease it professes to cure.

## Physician—Specialist—"W. S. C."

60 Devoe St., BROOKLYN, E. D., Nov. 12th, 1888.—I would say that "Warner's SAFE Cure" for the kidneys and bladder is the **best in the market to-day**. About five years ago I was troubled with what physicians called **inflammation of the bladder and kidneys**. It began with a constant desire to urinate, reaching some times as many as forty times a day. I grew worse rapidly, and finally was compelled to take to my bed, and for a week or more discharged mucus in large quantities. After treatment by two prominent physicians with no relief for three months I employed a specialist in kidney and bladder diseases, his fee being ten dollars per visit, but he made an exception in my case of five dollars. **After four months' treatment by him I found myself worse off than when I began**. My case was now quite serious, and as the last resort I was recommended to try your remedy. I had given up all hope of ever getting well, having lost twenty-three pounds, and looking and felt bad indeed, when after taking two bottles I found a decided improvement, and **after four bottles were used I was entirely cured**, but continued to take in all seven bottles, and thanks to "Warner's SAFE Cure" am a new man to-day. I will further state that my weight before using was one hundred and fifty-three pounds, and after being cured one hundred and seventy-seven pounds.

## A Grateful Woman's Tribute.

LYNCHBURG, Va. (1420 Church St.), Aug. 1st, 1888.—I perceived no change until I had used seven bottles of "Warner's SAFE Cure," together with "SAFE Pills" and "SAFE Nervine." While on the seventh bottle, and while almost in despair, the change came quietly and slowly, and I commenced to improve, and before I had used the tenth bottle, as far as the inflammation and gravel were concerned, I was a well woman. I shall always recommend "Warner's SAFE Cure," as it saved my life.

*Mrs. E. R. Stevens*

## A Positive Cure for the Gravel.

BENNETTSVILLE, S. C., Sept. 16, 1887.—For the past six years I have been a great sufferer from Gravel. The doctors here could do me no good. Then I concluded to try "Warner's SAFE Cure." Soon after I had taken the first bottle I **passed two gravel stones**. **I have not had any return of the symptoms**.

**What Patience and Perseverance do.**

RED BLUFFS, Cal., Aug. 15th, 1888.—Two years ago, while residing in Dakota, I was taken with severe pains in my kidneys and urethra. **This, the physician said when I consulted, was gravel,** caused by the alkali water which I was obliged to use. I suffered terribly, and grew so bad I could not sit up. Every afternoon about four o'clock I was taken with fainting spells, caused by the pain I was suffering. Finding my physician was not benefiting me any, I went to St. Paul, Minn., in hopes that I could find a physician there who could help me. After consulting with the best physicians in St. Paul, they concluded that the only thing they could do was to perform the operation of crushing the gravel-stone in my bladder. This operation I went through, but I found it only a temporary relief. In a short time the gravel began forming again, and **I was suffering the pain and agony as before the operation.** I grew so bad the physicians said I could not live. Having read considerable about the curative qualities of "Warner's SAFE Cure," I concluded to try it as a last resort. I took three bottles without experiencing any good results. Some of my friends said, "That medicine is doing you no good, give it up;" but as I had made up my mind to give it a thorough trial, I would not give it up. **After taking the fourth bottle, I found I was growing better.** I continued using it in connection with "Warner's SAFE Pills" (which I am now never without, as I think them the best pills I have ever used) until I had taken thirteen bottles. By this time I found I had no further trouble with gravel, and have had no trouble since.

**The "SAFE Cure" Made Him Whole.**

WILMINGTON, N. C., Feb. 10, 1888.—I thought that my suffering from the liver and kidneys was unbearable, for there were dreadful pains in the small of my back and sides. My bladder gave me *in-describable pain, too*, and my urine flowed or refused to flow, just as it chose. But worst of all I had an attack of rheumatism that I feared would end my life. One of the best physicians in Wilmington attended me, and when it became apparent that he could do me no good, I told him I believed I would try "Warner's SAFE Cure." "Warner's SAFE Cure" **put to flight all the pains, aches and other distressing symptoms.** No other remedy stands so high in North Carolina.

*E. J. Little*

**Completely Cured of Rheumatism.**

HANCOCK, Mich., July 23d, 1888.—This spring I was taken with the rheumatism. I took several different kinds of medicine, **but none of them helped me.** I took two bottles of "Warner's SAFE Rheumatic Cure," which completely cured me.

*O. G. Muson*

**Captured After a Long Chase.**

VINTON, Ia., July 18th, 1888.—In the spring of 1881 a **severe rheumatic pain at the base of skull** caused me great misery. The pain increased, and at the same time left its first location, and was felt between the shoulders, where it was very acute. During the summer and fall it passed down to the small of back and loins, then it apparently permanently located itself; but in the spring of 1882 I found it had passed to the left hip and affected the sciatic nerve. Having "holed the villain," I sought various remedies to unearth it, suffering in the meantime all one should for his many sins. **Remedy after remedy failed,** and, after recovering from a severe case of poisoning by using "quack" prescriptions, in the spring of 1883 I commenced using "Warner's SAFE Cure," following the directions minutely. Five bottles were taken before relief was noticed, **then a decided change for the better was shown.** Eleven bottles perfected an entire cure, although I continued to use the "Cure" until eighteen bottles in all were used. Since August, 1883, I have experienced no sciatica or rheumatic pains.

**For Twelve Long, Weary Years.**

CHICAGO (143 29th St.), Jan. 16, 1888.—I scarcely know how I can in this letter tell you of the intense suffering and agony I endured for *twelve long years* from that terrible disease, Rheumatism. A small fortune has been spent on patent medicines, liniments, and have had physicians of both schools, allopathy and homoeopathy, but still I suffered and grew worse instead of better; so after much persuasion from my mother I commenced using your "Warner's SAFE Cure" for the kidneys, and "Warner's SAFE Pills," but had no confidence whatever, as my stomach positively refused to retain liquid medicine. I took four bottles of both before I began to feel any effect. I then commenced sleeping good at night, and my appetite was better. My urine was a dark-red color, very frothy and thick. **I then knew that my kidneys were the cause of my painful disease.** I continued the use of your medicine until the swelling left my hands and feet, and **I felt well**, but even now when I feel badly I take a few bottles of "Warner's SAFE Cure" and "Warner's SAFE Pills," for I know that a case of rheumatism as severe as mine was, and of so long standing, cannot be cured at once.

## Her Skin was a Saffron Color.

RUSHVILLE, Ind., Feb. 12, 1888.—About six years ago this spring I was taken suddenly ill, and two physicians were called, but neither of them could tell what was the trouble. One said it was congestion of the liver, another said it was female trouble. I was treated for both nearly all season, but got no better. My kidneys had but very little action about them. There was but very little urine passed the kidneys for three or four days. During that time I suffered a great deal of pain through the lower part of my back, and my face and hands turned a *saffron color*, and I could not sit up any during this time. But after the four days my kidneys acted a little, and I could sit up for a short time; but I was really no better, for I had already suffered so long I was very nervous, and my appetite was nearly gone. I could take nothing but a little new milk. My husband called another physician, but he only gave me temporary relief. I *took sinking spells*, and hardly knew what was going on around me for five minutes at a time. When I came to I'd find great drops of sweat standing on my face and hands, and my body was in the same condition. It seemed *I was burning* up. After this wore off I was so weak I could hardly live. The doctor told us he could do nothing more. My husband asked him if "Warner's SAFE Cure" was not a good remedy. Says he: "Anything in the world that will give relief." We got a bottle at once. After I took two doses I felt a change. I took nine bottles. I think it *saved my life*, and to-day I am a *stout, healthy woman*. I owe my thanks to "Warner's SAFE Cure."

*Mrs. John G. Holt*

## For Eight Years a Sufferer.

NEWARK, O. (523 Locust St.), Nov. 7, 1885.—Before my marriage I never knew what it was to have a sick day. With my first child I experienced almost everything that is ever known to woman. My case did not improve, and for eight years I was *a most miserable sufferer*. I had all the physicians in the neighborhood, and a female doctor included. All of my inner parts were out of their proper places—*a most deplorable condition*. After trying everything prescribed for me for eight years I began "Warner's SAFE Cure." The first bottle gave me relief. After taking about ten bottles I *felt perfectly well*, and *felt like a young woman* once again.

*Mrs. C. B. Dickinson*

## "Which Gave Me Immediate Relief."

PEABODY, Kas., April 30th, 1888.—Two years ago I was attacked with *female weakness*, for which I doctored without any relief. One of my friends recommended "Warner's SAFE Cure," which I sent and got at once. It gave me immediate relief, and after using six bottles I was completely cured. This spring I was attacked with nervous debility, and am now using "Warner's SAFE Cure" and "Warner's SAFE Nervine," and I am again on my feet and doing part of my work.

*Annie M. Hendricks*

## The Result was Almost Miraculous.

STAUNTON, Va., Sept. 12th, 1888.—For a long time I suffered as no mortal tongue can tell from a disease or rather a *complication of diseases peculiar to my sex*. My case was one of those that are almost hopeless, and as the physicians could do no earthly good the case was the more distressing. When every effort had been put forth without any perceptible change for the better, and when the extremity had been reached, my attention was called to an advertisement of a cure performed by "Warner's SAFE Cure," and as a last resort we tried what it would do in my case. **The result was almost miraculous.** In an incredibly short while I was restored to health. Time enough has elapsed to prove the cure permanent. I cannot find words strong enough to express the gratitude I feel to those who placed this great cure within my reach.

(Miss) *Julia Sauer*

## An Opinion from a Chief Justice.

KALAMAZOO, Mich. (129 W. Cedar St.), April 6, 1888.—My wife who has been an invalid for many years, has taken a large number of bottles of "Warner's SAFE Cure," and still uses it with great benefit to herself. I can, with emphasis, indorse it as a grand and valuable remedy.

(Hon.) *T. P. Sherwood*

Chief Justice State Supreme Court, Michigan.

## Good Words from a Sister of Charity.

St. Ann's Academy, OSAGE MISSION, Kas., July 6, 1888.—My health has been good all winter and spring; and all my old trouble, I might say, has disappeared. I continued taking "Warner's SAFE Cure" faithfully until the middle of last January. I took in all one hundred and ten bottles. Notwithstanding the weather is very warm, **there is no return of the boils with which I was afflicted.** At times I had disordered stomach, so I thought I would try "Tippecanoe." I took six bottles, and it has benefited me very much. I think it an excellent tonic. I am happy to say I enjoy better health than I have for sixteen or seventeen years. I could not express how grateful I feel to you for the good health I enjoy at this time.

*Sister Mary Alice*

## Analysis of Urine.

This is always of value, and many times absolutely essential to a diagnosis. To enable us to make a diagnosis and give you the information you seek, you must *carefully observe the following instructions* for sending urine: Fill a clean, strong, half-pint bottle at least half, but not over two-thirds full (urine first passed in the morning preferred); attach paper giving name, full post office address and quantity of urine passed in twenty-four hours (by measurement); pack in sawdust, cotton or paper, *prepaid*, and accompanied by \$1.00—actual expense incurred in making the analysis. Also give age, sex, occupation, history of sickness and symptoms. Seemingly trifling omissions often render an analysis impossible or worthless. Address H. H. Warner & Co., Medical Dept., Rochester, N. Y.

# TIPPECANOE,

*The Best Remedy for the Stomach, Headaches, Depression of Spirits, Blues, Despondency, Fickle Appetite, Indigestion, &c.*

## It Was Really Marvelous.

WEBSTER, N. Y., Jan. 24, 1887.—During last fall I was a very sick man. I do not know what came over me, but I could not keep a thing on my stomach—vomited everything I ate. My doctor could do nothing for me—that is, he did all he could, but it did no good, and finally he confessed that he could do nothing further. For two weeks the only thing that passed my lips was ice cream. At last my son told me he was going to bring me a bottle of "Warner's Tippecanoe, The Best." I started with half a spoonful. I threw it up. As soon as I got a little strength I tried it again. It stayed down, and from then on I gained right along, and am now as strong and well as ever I have been. It was really marvelous. I had lost thirty pounds, and had fallen away so much that I could feel my back-bone by pressing on my abdomen. The doctor confessed himself beaten, and could not understand my case, and I really believe I should not be alive now if it had not been for the happy circumstance that put that medicine in my hands.

## The Dyspeptic's True Friend.

JACKSON, Tenn., April 13, 1887.—I have suffered for years from *Dyspepsia*; lived upon bread alone for many long months, and life was a burden grievous to be borne; took every remedy prescribed by able physicians, but obtained no relief, until I began your remedies; and "Warner's Tippecanoe, The Best," I can truthfully say it is the best and cheapest medicine I ever used, and can recommend it to all dyspeptics. I can now eat anything, and weigh more than at any previous time. I cannot praise "Warner's Tippecanoe, The Best," enough.

*Mrs. L. E. Blanton*

## Another Case of "Almost Dead."

SALT LAKE CITY, Utah, March 13th, 1888.—Three years ago I was taken with a **severe cold**, which ordinary remedies or the doctors were unable to relieve me from. After some time **my stomach and liver became affected**. I was taken with violent flutterings of the stomach. My liver trouble grew worse, and I had violent heart palpitations. The doctors said I had heart disease and congestion of the liver. Three of the best physicians in the city treated me for months without giving me relief. I was confined to my bed all this time, and suffered terribly with my stomach and liver, and my heart beat at times so violently the palpitations could be heard across the room. **I was so low it was thought I must surely die**, and my relations were sent for. In this state I dispensed with doctors

and their medicines, and began taking "Warner's SAFE Cure" at intervals of a few hours. Its effect was so marked I was able to be out of bed in a week. My appetite had failed me entirely. I continued the "SAFE Cure," following the directions as to diet, etc., faithfully, and took "Tippecanoe, The Best," for my appetite as directed. **My recovery was rapid and complete**, and after three months I felt and looked as healthy as I ever did, to the great astonishment of myself and acquaintances.

*Mrs. L. L. Johnson*

## A Good Anti-Bilious Medicine.

DEFIANCE, Iowa, Nov. 30, 1887.—Father keeps "Warner's SAFE Cure" in the house all the time. He thinks it is a good anti-bilious medicine. He also uses "Tippecanoe, The Best," and would not be without them.

## Six Physicians Fail—"Safe Cure" Wins.

RIVER FALLS, Wis., July 6th, 1888.—Several years ago I was an incurable dyspeptic. During ten years I had tried not less than six physicians, to no purpose. Once or twice a year I used to have severe pains in my bowels, the pain being so great that my life was often despaired of. My family physician brought me through, and called the trouble passing Gall Stones. I was getting worse when I was advised to try your "Warner's SAFE Cure." I took ten bottles without any perceptible difference. I wrote you at the time. You advised me to keep on, and I did so until I took twenty bottles, but by that time I was a well man. I am now in my 69th year, yet I am in good health and feel younger.

## Young Men.

Since issuing our last pamphlet calling attention to the affections resulting from the Errors of Youth, and the special treatment given by our medical department for such cases, we have given advice and prescriptions that have resulted in complete and rapid cure in many cases, and at trifling expense. This we do simply for the purpose of preventing young men falling into the hands of advertising swindlers, who only want their money. State your case, and we will forward you our circular, in plain envelope, giving full information.

**DON'T EXPECT A CURE WITH ONE OR TWO BOTTLES.**—Your disease is deep-seated and requires full and faithful treatment. Read the testimonials and keep up your courage, and you will finally get well.

### A Mother's Grateful Tribute.

LANCASTER C. H., S. C., March 28, 1888.—In the summer of 1886 my son, then six years of age, had a **severe attack of Diabetes**—so pronounced by my family physician who treated him for six weeks, and not only gave him **no relief** but said every dose of medicine made him worse. After the doctor had given him up, the Rev. Mr. Moore advised me to try "Warner's SAFE Diabetes Cure." The first bottle gave him so much relief that I continued the use of it, and in less than seven months I saw him **well and hearty again**. Feeling that **I owe my boy's life to this invaluable remedy**, I can't find language to express my gratitude, and **I most unhesitatingly recommend this wonderful medicine to all who may be suffering from this terrible affliction**. I have used "Warner's SAFE Cure" myself for six years, and it has been my only doctor for all that time. I would not be without it, as it substitutes all other medicines in my family.

*Mrs W. L. Edwards*

### Satisfied with the Benefit.

ELDORA, Ia., Aug. 13th, 1888.—On the first day of July last I began using "Warner's SAFE Diabetes Cure" and following closely the directions as to diet. On that day the specific gravity of my urine was 1046 by analysis, showing 19 grains of sugar to four ounces of urine. I am pleased to state at this time that the gravity of my urine stands at 1030. I have fully regained my vision, which was greatly impaired, my strength is rapidly returning, and I consider myself as good as cured.

### Free to Say it Prolonged His Life.

GREENFIELD, Ind., July 17th, 1888.—For a number of years I have been **afflicted with Diabetes**. I have never been under the care of a physician, venturing to use such remedies as from time to time I saw recommended as cures. I finally began taking "Warner's SAFE Diabetes Cure," and used it continually until I had used thirty-six bottles, and I am free to say I doubt not under God it has prolonged my life, and I gladly recommend it as a valuable remedy for the disease to all who are thus afflicted.

*H. B. Wilson*

### No Doubt a Pleasure to Relate.

Office C. & O. R. R., CLIFTON FORGE, Va., July 8th, 1888.—Some years ago my mother was so ill (from Heart Disease and Indigestion) that **her life was despaired of**. You may rest assured that all that money could do towards securing relief for her was done. Every effort that loving friends could make was made, but no good came from our efforts. When the extremity of her illness was reached we were induced to give "Warner's SAFE Cure" a trial, and I am happy to say that it **completely restored the sufferer to health**.

### A Remedy for Bleeding Piles.

VILOTT, Cook Co., Texas, July 3d, 1888.—I have been using "Warner's SAFE Cure" in my family for several years, and I will now write some of the effects. **For the last eight years I have been troubled with the Bleeding Piles**; being a farmer, plowing, they almost took my life. In February, 1883, I got so I could not go; was confined to my bed for weeks. I had tried everything I could get, but found no relief. At last I called in a doctor, but he did no good. Finally I told him I never could be cured, and I intended trying "Warner's SAFE Cure." I knew it had got me out of several bad spells. He quit me, so I sent for three bottles of "Warner's SAFE Cure" and "Warner's SAFE Pills," and commenced taking them. I had not been able to sit up or walk for some time, but by the last of March I could do good plowing, and **I have not been troubled with piles since**. I have spent dollars and dollars and no good, and three bottles of "Warner's SAFE Cure" did the work that \$50 had failed to do.

### Good Medicine for Drummers.

SAN FRANCISCO, Cal., June 30th, 1888.—For the last eight years I have traveled and sold goods on the Pacific Coast. The constant riding on the cars and stages, irregular meals, etc., all **tended to produce severe indigestion**, which soon disarranged my whole system. Finally contracting a severe cold, which settled in the small of my back, was compelled to consult my physician. He did not relieve me of any of the pains in my back, and the indigestion still remained. I was induced to try "Warner's SAFE Cure" and "Warner's SAFE Pills." The pain in my back left me before I had finished the third bottle. **At the end of five weeks my dyspepsia disappeared**, and I have not had any return since.

### The Result Was a Sure Cure.

WELLSVILLE, Mo., March 31, 1888.—I was taken with irregular chills followed by very high fever, especially in my head. When clear of the fever I had an uncommon appetite. Two weeks later I was taken with severe pain in my back; in bed three weeks. Would have to urinate three or four times a night and oftener in the day. Called my family physician to see me; he called it Diabetes. He helped me for a short time, but the disease soon came back, apparently to stay. But, thank God, the great "Warner's SAFE Diabetes Cure" came to my notice. Took four bottles of the medicine, and the result was a cure. I cannot say too much in its favor.

*John H. Hayden*

# WARNER'S LOG CABIN REMEDIES

Have already become household medicines, though they have been on the market but a very short time. The success thus far attained is far greater than we expected, and we are satisfied that in placing them before the public we have saved considerable sickness and suffering. They are all Remedies *tried and true*, and are not to be found wanting if used as directed. Especially is this so with *Warner's Log Cabin Sarsaparilla*, which practically makes new blood, and changes vile blood to pure blood, enriching and vitalizing it. It acts as a natural tonic to every organ in the body; it attacks disease, hunts it down in every part of the system, and expels it from the blood through the natural blood-cleansing channels.

Stop the pimples, clear up the yellow skin, put an end to the swollen glands, break up the distressing headaches, put out the rheumatic fire of the blood, gently aid the liver, take out from the circulation the heart irritants, regulate the regulator (the liver), and keep healthy the processes of digestion; in short, get a new lease of life by regular use of "Warner's Log Cabin Sarsaparilla." It is a preventive as well as a curative.

## THE WRAPPERS.

All of "Warner's Log Cabin Remedies" (with the exception of "Warner's Log Cabin Liver Pills") are put up in wrappers very generally alike. The front shows the *registered trade-mark of a Log Cabin* seen through an open window, which is hung with curtains of old-gold. Upon one curtained side of this wrapper, in large white letters, is the name "Log Cabin;" on the opposite curtained side is the *Name of the Remedy* in the same letters.

Above the window and the old-gold curtains on the face and right and left sides of the wrapper, the ground-work is of blue and red stripes.

"Warner's Log Cabin Pills" are put up in plain vials, covered with white wrappers, bearing Log Cabin trade-mark.

"Warner's Log Cabin Rose Cream" is in plain bottles, with metallic cover screwed on; "Warner's Log Cabin Plaster" is porous, and is identified by our Log Cabin (trade-mark rights secured) on the back of the clothes-protecting muslin.

## THE BOTTLES.

"Warner's Log Cabin Sarsaparilla," "Warner's Log Cabin Cough and Consumption Remedy," "Warner's Log Cabin Hops and Buchu Remedy," "Warner's Log Cabin Extract," and "Warner's Log Cabin Hair Tonic," are put up in *amber glass bottles having one broad surface for the label, and a bay-window style of panels or sides, in which sides or panels the name of the remedy is blown in raised letters* in the glass.

## THE PRIVATE STAMP.

Over the end of the outside package of "Warner's Log Cabin Rose Cream," and on the end of the "Log Cabin Liver Pills" package will be found a round promissory-note stamp. Over the cork of all the liquid Log Cabin Remedies is a long private promissory-note stamp.

## THE LABELS.

Each label bears the registered trade-mark of an old-fashioned Log Cabin seen through a modern curtained window, and the firm's fac-simile signature.

*The Log Cabin, the Stamp and the Signature* are the three important distinctions which should always be borne in mind by the purchaser.

It is a *State Prison offense* to counterfeit trade-mark, stamp or signature.

## INSIST ON WHAT YOU ASK FOR.

Be sure that you get just what you call for. *Every Wholesale Dealer in the United States has Log Cabin Remedies in stock*, and when you call for them *insist upon it*, if your local druggists do not keep them upon their shelves, *that they shall Order Them For You*.

Do not allow them to present "something just as good," *for they have nothing just as good*—their purpose presumably being that if they can get you to take some cheap substitute for these superior remedies, they may make larger sums of money upon the sale.

Each one of these Log Cabin Remedies sells at the price named, or "six for price of five."

IS SUPERIOR IN EVERY RESPECT TO ANY OTHER YEAST EVER OFFERED TO THE PUBLIC, FOR THE FOLLOWING REASONS:

- 1st.—Every article used in its manufacture is Guaranteed to be Absolutely Pure.
- 2d.—It will retain its Strength much longer than any other Yeast.
- 3d.—Bread made with "SAFE Yeast" will remain moist and sweet for many days.
- 4th.—It can always be relied on to do the work required of it.

The sales of "SAFE Yeast" nearly equal the combined sales of all other brands of Dry Hop Yeast manufactured, which fact in itself is unmistakable proof of its excellence.

Every package contains eleven (11) Cakes and retails for Ten (10) Cents, or the price of any inferior article called Yeast. Our Dry Hop Yeast is guaranteed to be the best Yeast made.

LADIES: Save TEN Top Covers from "Warner's SAFE Yeast" packages and send them to us with ten (10) 2-cent Stamps, and we will mail you a copy of "Warner's SAFE COOK BOOK," containing 500 pages of valuable Household Recipes.

"Warner's SAFE Yeast" is for sale by all first-class Retail Grocers. If your Grocer has none, insist upon his getting a supply, and take no other.

*Warner's Safe Yeast Co.*

ROCHESTER, N. Y.

HUBBARD HOUSE, CLAYTON, N. Y., August 20, 1887.—Having thoroughly tested "Warner's SAFE Cook Book," I feel it my duty to recommend it as being perfect, reliable and invaluable.

MRS. J. T. HUBBARD.

ESKRIDGE, Kansas, July 26, 1887.—I have used "Warner's SAFE Yeast," and find it to be **the best on the market**. It only needs a trial to convince one of its merits. I cannot keep house without it.

MRS. S. E. HULL.

WHEELING, Mo., August 14, 1887.—I received "Warner's SAFE Cook Book" some time ago, and can say that it surpasses my expectations. I have tried several leading cook books, but "Warner's SAFE Cook Book" is superior to them in each of its departments.

MRS. N. E. KIDDER.

MUSCATINE, Iowa, August 17, 1887.—I have tested many of the recipes in "Warner's SAFE Cook Book," and I find them the very best I ever used. They are even better than they are represented.

MRS. IDA C. VANCE.

NEWARK, N. J., May 29, 1887.—My wife has used "Warner's SAFE Yeast" in her two last bakings, and is well pleased with it. She says the **bread keeps longer moist**, and rises sooner and better than any other yeast she has ever tried.

H. McKENDAL.

ROSS MILL, Amherst Co., Va., July 12, 1887.—I have been using "Warner's SAFE Yeast" for some time, and find it more satisfactory than any other yeast I ever used. It is always ready and never fails. It has an advantage over all other yeast, because **it keeps**, and we run no risk in buying it.

MRS. K. C. BROWN.

WILLIAMSPORT, O., August 18, 1887.—I have been using "Warner's SAFE Yeast" for the past eight months, and find it to be **the best** I have ever used. It does not sour like home-made yeast.

MRS. SARAR BRINER.

ST. CECILIA'S ACADEMY, NASHVILLE, Tenn., July 5, 1887.—I have used "Warner's SAFE Yeast," and am much pleased with it. MOTHER URSULA.

ST. LOUIS, Mo., August 13, 1887.—I have used "Warner's SAFE Cook Book," and find it a very valuable book of knowledge for the kitchen, and appreciate it very much; also "Warner's SAFE Yeast."

MRS. ADAM RUHLAND.

GREECE, N. Y., August 16, 1887.—I have tried a number of recipes contained in "Warner's SAFE Cook Book," and find it beyond my expectations. Most complete book I ever had. I have been using "Warner's SAFE Yeast" since it was first introduced, and I shall use no other, as I cannot make good bread without this Yeast.
